Conductors and Engine Foreman will be furnished work orders during their tour of duty.

This document will specify the cars to be picked up or set out at various stations, industries or interchange tracks serviced by the train or switch job.

Certain information (described below) must be recorded on the work order document by the Conductor or Engine Foreman. Prior to turning in the document at the designated reporting station, it must be dated and signed even if no work was accomplished. This is necessary to comply with switching and demurrage tariffs as well as other rules and regulations.

- BO - Bad Order
- ND - Work Indicated Not Done (State Reason)
- NIT - Car Not in Train or Not on Track
- OTCC - Car on Track Carriers Convenience
- OTNP - Car on Track Not Placed
- PULL - Car Pulled, Time and Date
- SPOT - Car Spotted, Time and Date

Conductor/Engine Foreman must make notation on work order of any exceptions taken to the work order, such as no car, car not on list, car out of line, car is hazardous, excess dimensions (when the information is not so indicated on work order), car is carded ready for head end movement, or any other exceptions noted.

If switching is performed without a work order, the Conductor or Engine Foreman must complete the prescribed form showing all the information required above and turn it in at the designated reporting station.

If an industry requests service not shown on work order, Conductor/Engine Foreman should obtain such request in writing. This request is to be turned in with work order for processing. If unable to obtain request in writing, Conductor/Engine Foreman should record on work order the name of the person making request and the service requested and performed.

For observation and guidance, the following codes may appear on work order:

- AI - Agricultural Industries
- BI - Bad Order
- BA - Blasting Agent
- BT - Bare Table (no vans/containers)
- CD - Condemned
- CG - Cargill
- DG - Dangerous
- DH - Do Not Hump
- DU - Do Not Uncouple
- EC - Empty Container (speed restricted 55 mph)
- EQ - Union Equity or Equity Export, Houston
- FW - Flammable Solid "W" (Dangerous when wet)
- HE - Head End Only
- HL - High Wide Load
- HV - High Value
- IP - Interchange Prohibited
- IPSW - Intraplant Switch (Respot Car)
- LS - Handle in Local Service Only
- MRXX - Mechanical Refrigeration Maintain "XX" Degrees
- MCNR - Mechanical Car or Trailer - No Refrigeration Required
- ND - Do Not Divert
- NP - No Placards Required
- OR - Other Regulated Material
- OX - Oxygen
- PB - Poison
- PE - Houston Public Elevator
- RE - Rear End Only
- RM - Radioactive Material
- REJT - Car Rejected by Shipper
- RSPT - Respot Due to Railroad Error
- SO - Car/Van Billed Shippers Order
- TURN - Turn Car & Respot
- WH - Weigh Heavy
- WI - Waive Inspection - Set Direct
- WL - Weight Light
- XA - Explosive A
- XB - Explosive B
- XX - Do Not Move This Car
- ZZ - Cryogenic Liquid Subject to ATSF Operating Rule 103N

GOOD COMMUNICATION AND COMPLIANCE WITH
INSTRUCTIONS IS ESSENTIAL FOR A COMPLETE AND
SUCCESSFUL OPERATION. YOUR REPORTINGS ARE THE
KEY TO ACCURATE RECORDS. THE COMPLETE
COOPERATION OF EVERY EMPLOYEE IS SOLICITED AND
APPRECIATED.
