**PART TWO**

**Miscellaneous Stationery Items Carried in  
Stock by**

**The A.T. & S.F. Ry. Co.**

**JANUARY 1, 1975**

**Read General Notice and Instructions**

GENERAL NOTICE AND INSTRUCTIONS

PART ONE

1. Note forms are classed as either Standard or Special.
2. Standard forms are carried in stock by Purchasing & Materials Department, at Topeka, Kansas, only.
3. Special forms are carried in stock by the Using Departments only. Replacement forms are secured through the Purchasing & Materials Department, and are ordered from Vendor only upon receipt of approved 1109 Reqn.
4. Suffix Letters and Numbers are assigned where forms are generally similar and serve the same purpose, but are slightly different.
5. The general purpose of assigning a separate number to each form is to have them listed separately so they may be ordered by number and thus avoid confusion. Forms are assigned numbers in series assigned to specific departments.
6. If a new form not already assigned a number is required, approval should first be obtained from the official who is responsible for the expense, or his delegated authority. For example: Freight Department forms should be authorized by the Freight Traffic Manager; Accounting Department forms by the General Auditor; Engineering Department forms by the Chief Engineer, etc.
7. Great care should be used in preparing "Copy" for new forms so that changes will not be necessary.
8. Written advice of any form discontinued should be given to Purchasing and Materials Department, Crane & Adams Sts., P.O. Box 1674, Topeka, Kansas 66601.
9. Forms showing Special should be ordered separately from other items; this will save expense of part copying requisitions, and expedite delivery.
10. The number at the right of the description is the item number covering the class of records under which the form falls as described in the regulations of the Interstate Commerce Commission, Governing the Destruction of Records of Railroad Companies: Effective October 14, 1975.

C. C. GLOVER

DIRECTOR OF PURCHASES AND MATERIALS

# GENERAL NOTICE AND INSTRUCTIONS

## PART TWO

1. Miscellaneous stationery items not listed in Part Two, are to be ordered on a separate requisition, as they are ordered special; this will save expense of part copying requisitions and expedite delivery.

2. Miscellaneous items should show proper nomenclature as listed Part Two of 1091 Std.

NOTE: Order all Miscellaneous stationery items by the "Unit" of Measure shown in Part II, to avoid confusion and shipments of erroneous quantities.

3. Miscellaneous items are carried in stock in the Materials Department at Topeka, and the 10-digit item number shown on the right is used to identify items on the computer.

4. Forms listed as Standard and Miscellaneous Items in Part Two can be ordered on the same requisition except as outlined in Number one above.

5. The instructions as listed above do not modify previous instructions on ordering miscellaneous stationery issued by heads of departments.

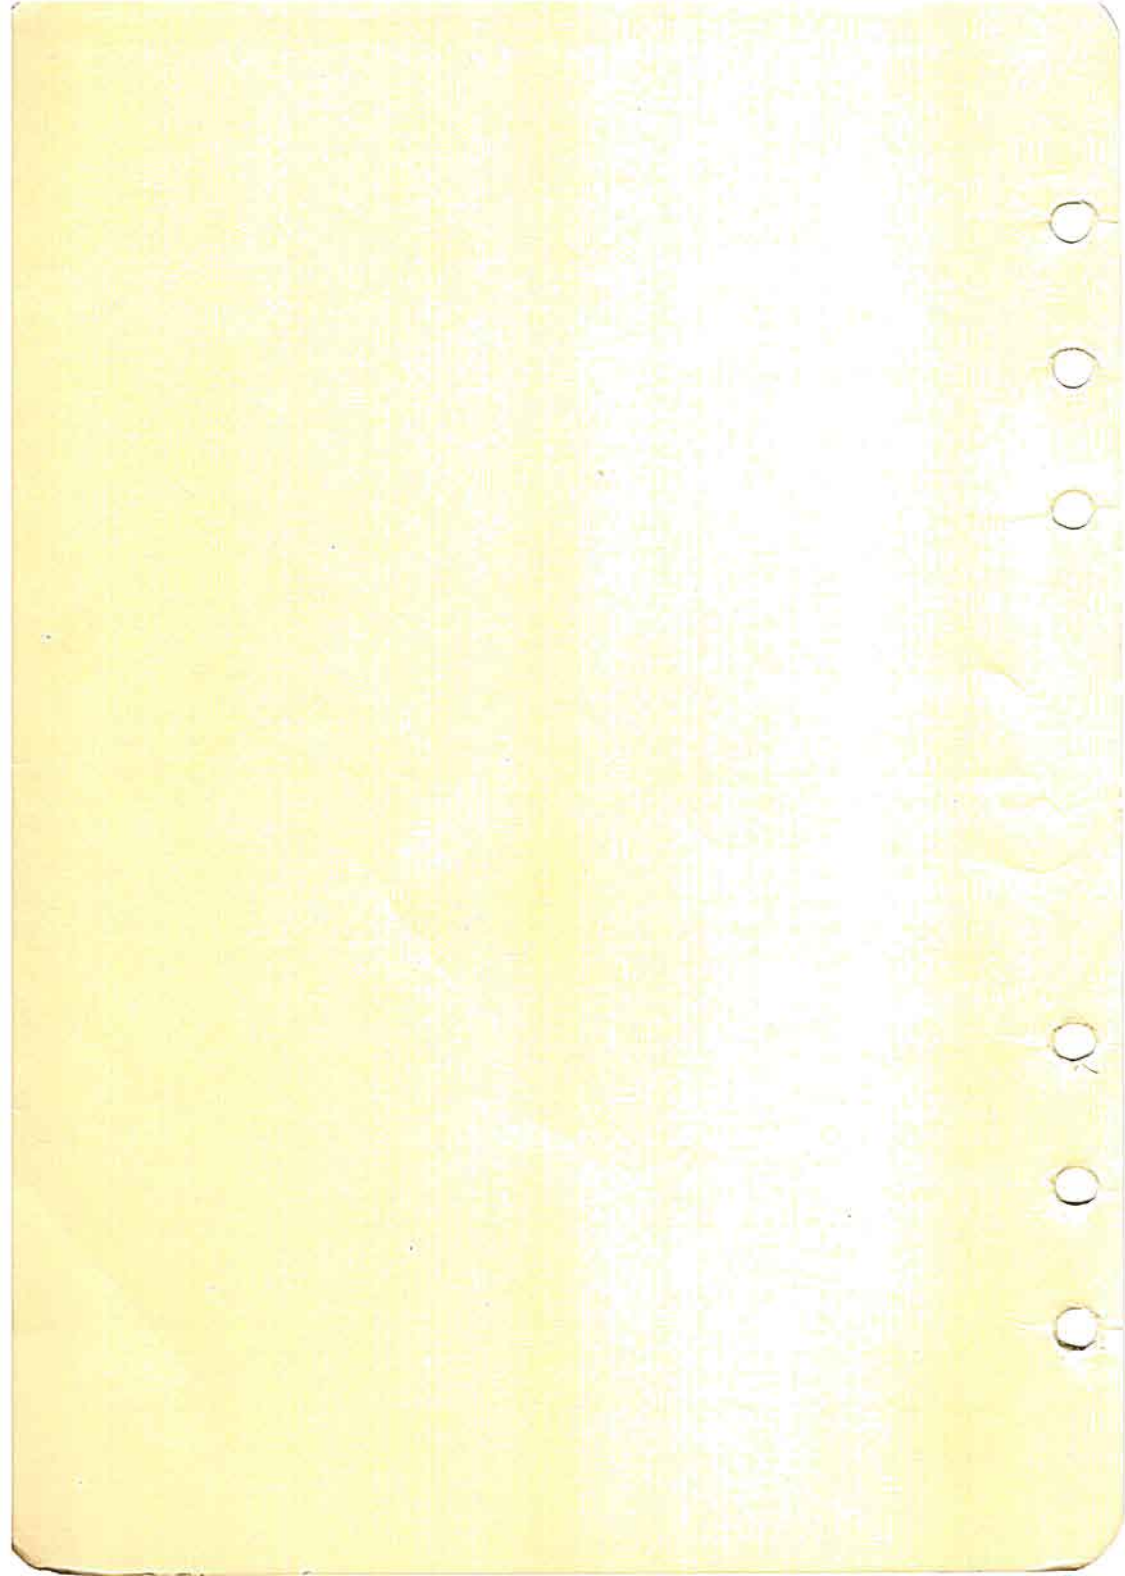

C. C. GLOVER  
DIRECTOR OF PURCHASES AND MATERIALS

## PART ONE

List of Form Numbers assigned to Forms In Use by The A.T.& S.F. Ry. Co.

### *General Notice and Instructions*

1. Note forms are classed as either Standard or Special.
2. Standard forms are carried in stock by Purchasing & Materials Department, at Topeka, Kansas only.
3. Special forms are carried in stock by the Using Departments only. Replacement forms are secured through the Purchasing & Materials Department, and are ordered from vendor only upon receipt of approved 1109 Req'n.
4. Suffix Letters and Numbers are assigned where forms are generally similar and serve the same purpose, but are slightly different.
5. The general purpose of assigning a separate number to each form is to have them listed separately so they may be ordered by number and thus avoid confusion. Forms are assigned numbers in series assigned to specific departments.
6. If a new form not already assigned a number is required, approval should first be obtained from the official who is responsible for the expense, or his delegated authority. For example: Freight Department forms should be authorized by the Freight Traffic Manager; Accounting Department forms by the General Auditor; Engineering Department forms by the Chief Engineer, etc.
7. Great care should be used in preparing "Copy" for new forms so that changes will not be necessary.
8. Written advice of any form discontinued should be given to Purchasing and Materials Department, Crane and Adams Sts., P.O. Box 1674, Topeka, Kansas 66601.
9. Forms showing Special should be ordered separately from other items; this will save expense of part copying requisitions, and expedite delivery.
10. The number at the right of the description is the item number covering the class of records under which the form falls as described in the regulations of the Interstate Commerce Commission, Governing the Destruction of Records of Railroad Companies: Effective October 14, 1975, ammended July 9, 1976.

## PART TWO

Miscellaneous Stationery Items carried in stock by The A.T.&S.F. Ry. Co., in the Purchasing & Materials Department, Topeka, Kansas.

### *General Notice and Instructions*

1. Miscellaneous stationery items not listed in Part Two, should be ordered on a separate requisition, as they are ordered special; this will save expense of part copying requisitions and expedite delivery.

2. Miscellaneous items should show proper nomenclature as listed in Part Two of 1091 Std.

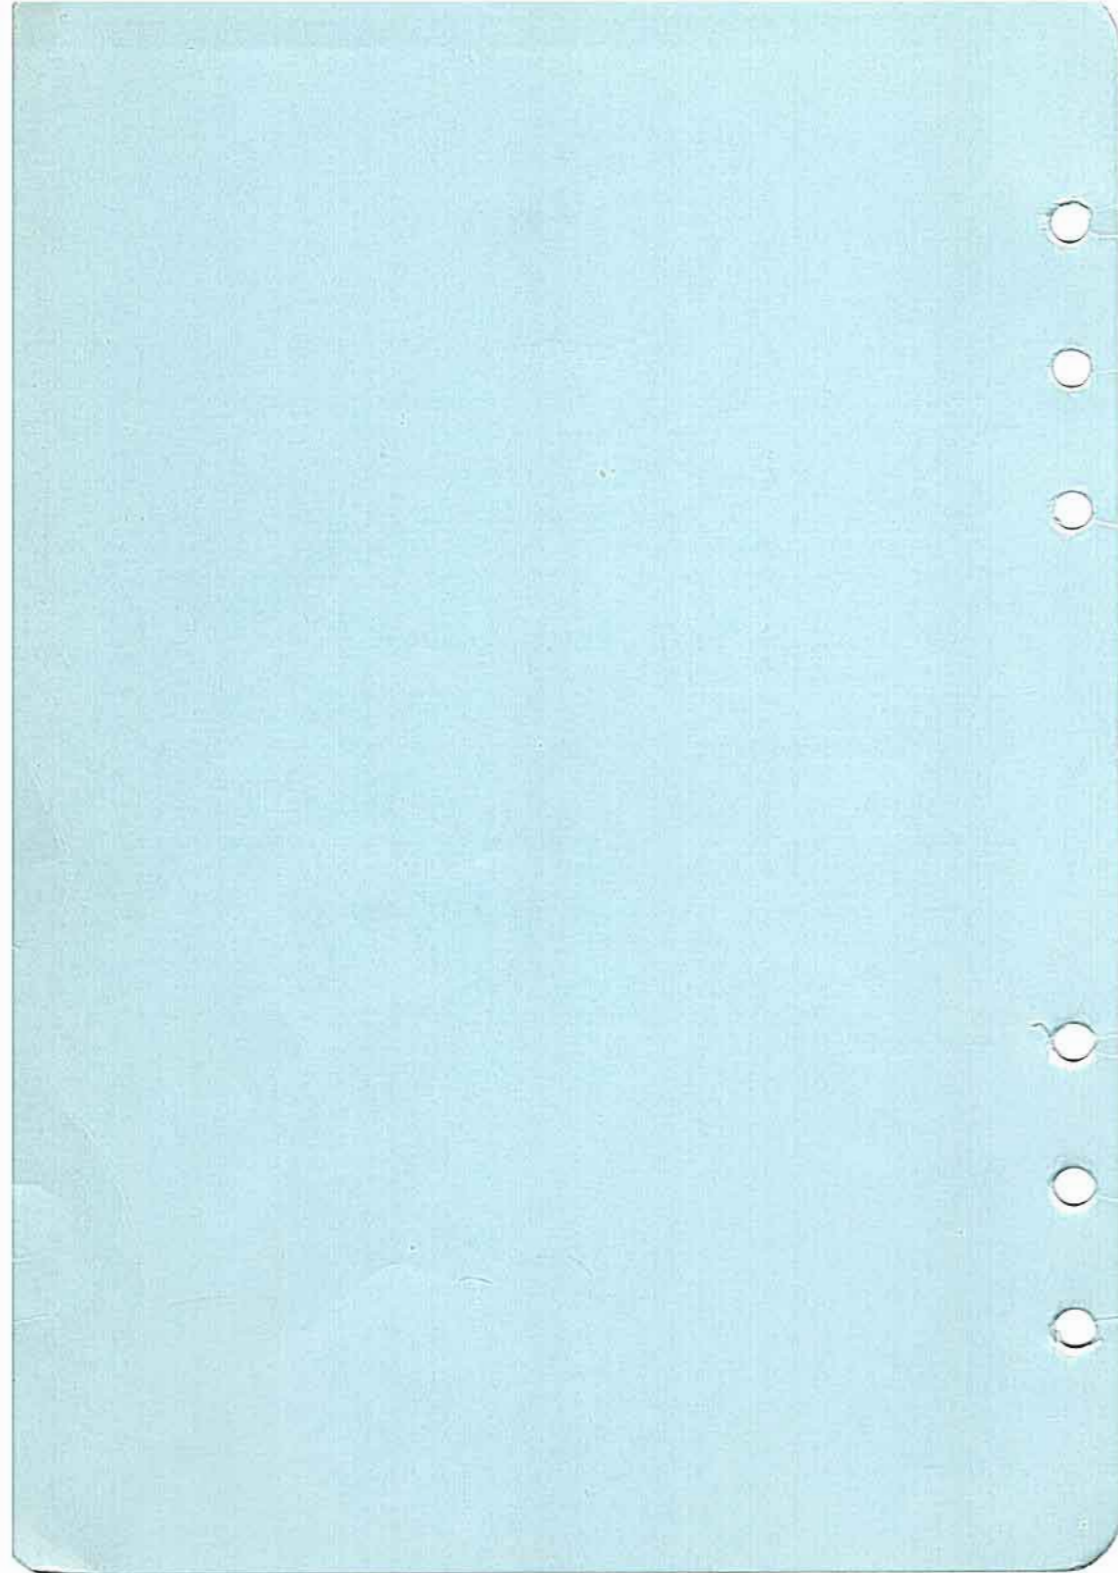

Note: Order all Miscellaneous Stationery items by the "Unit" of Measure shown in Part II, to avoid confusion and shipments of erroneous quantities.

3. Miscellaneous items are carried in stock in the Materials Department at Topeka, and the 10-digit item number shown on the right is used to identify items on the computer.

4. Forms listed as Standard and Miscellaneous Items in Part Two can be ordered on the same requisition.

5. The instructions as listed above do not modify previous instructions on ordering miscellaneous stationery issued by heads of departments.

### NOTE

"Most typewriters, calculators, and adding machines, regardless of make, use one of 13 standard typewriter spools. Since identical spools are used by different manufacturers, it is possible that one ribbon can be used on ten or twenty different models on typewriters alone.

It is recommended that cotton ribbons be used on manual typewriters and nylon ribbons used on electric typewriters. Cotton holds more ink and deposits more with each impression, thus giving a heavier impression, especially when the ribbon is new. Nylon gives a sharper impression because of its thinness of material and because of its strength, stands up to the force of electric typing. Polyethylene film ribbons are one-time ribbons and are discarded after a single typing. However, they produce a rich black printed appearance which gives an executive look to correspondence. It is also, by far, the best ribbon that can be used for reproduction by offset printing or office copy machines.

If you are unable to determine the correct ribbon required for use on your particular model typewriter, the following information must be furnished:

1. Manufacturer and Model.
2. Type—Cotton, Nylon or Film.
3. Color (Either Black or Black & Red for Fabric Ribbons)
4. Inking (Either Medium or Heavy for Fabric Ribbons)

5. On older manual typewriters, serial number will also be needed as some manufacturers changed spooling mechanism before a particular model was discontinued."

For the Santa Fe Railway  
Historical and Modeling  
Society, [www.ATSF.RY.org](http://www.ATSF.RY.org)

Thanks to those who have shared the  
fruits of their research and helped  
my education in things Santa Fe.  
Sharing this is one small way to give  
back and pay forward. I hope that  
this edition of the blank form index  
will aid the modelers of the latter  
days of the Santa Fe as the editions  
John Moore has graciously shared have  
helped me with my 40's era modeling.

If you have stuff, please share it.  
We all benefit and increase our knowlege.

John C. Barry, Arlington, VA  
From my collection, scanned  
and converted to PDF 23 Feb 2016.
